ABOUT ME

Software Developer graduated from ITLA with hands-on experience in real-world enterprise projects, including a clinical management web application and internal banking systems.

Skilled in the full web development stack, including React, TypeScript, HTML/CSS, C#, .NET 8, SQL Server, and MongoDB.

Responsible, eager to learn, and adaptable to new technologies and collaborative work environments.

PROFESSIONAL EXPERIENCE

Tectrics SRL — Front-End Development Intern

January 2026 – April 2026

- Contributed to the development of AppSalud, a web-based clinical management application for a psychology center.
- Developed the "Children's Clinical Interview" module using React, Vite, and .NET 8, currently in production.
- Implemented features following Clean Architecture and CQRS principles.
- Worked with SQL Server and MongoDB databases.
- Collaborated in an Agile Scrum environment using Azure DevOps.

Banreservas — Software Development Intern

April 2026 – Present

- Support the Core Development team by developing and maintaining internal applications.
- Develop new features using React, TypeScript, HTML, CSS, and C#.
- Work with Docker and Keycloak for containerization and authentication management.
